

NX SERIES

FILTER-HOLDER SYSTEM

FILTER-HOLDER

The NX-Series filter-holder is the core of the new NX-Series 100mm system. Made of strong aluminium, it uses an innovative design to reduce weight and to increase the maximal angle of view. Therefore, ultra wide-angles lenses such as 16-35mm zoom lenses can be used without vignetting even at 16mm on digital full-frame cameras. The NX-Series filter-holder needs proprietary frames in aluminium to fit your Nuances Extreme filters. Each frame is held in position and can be easily adjusted by small pressure balls set in each metallic slot. The polarising filter has a special mount which can be easily rotated with an adjustment wheel on the side of the filter-holder. You can use up to 1 C-PL and 2 square or rectangular filters. The NX-Series filter-holder is compatible with Nuances Extreme filters, Nuances Clearsky and Infrared 720 filters in L size. It is also compatible with mineral glass filters from other manufacturers with the exact dimensions 100x100x2mm or 100x150x2mm.

Specifications:

- Recommended operating temperatures: -10° to +40°C
- Recommended Relative humidity: 10% to 90%
- Compatible rings: CREATIVE ø49mm to ø95mm
- Compatible filters: NUANCES Extreme, Clearsky and IR720 filters (L size) and filters from other brands in 100x150x2mm or 100x100x2mm mounted in NX-series 100mm frame (sold separately)
- Made in China

EAN code: 3 611 531 200 134
SKU: HOL01NXS

POLARISING FILTER

A must-have for practicing landscape photography with your NX-Series filter-holder. The NX-Series polarising filter is the first filter to use in your NX-Series 100mm filter-holder. It has a proprietary aluminium mount which is knurled to easily adjust the polarising effect in the image through a metallic wheel at the side of the filter-holder. The filter absorbs only 1 f-stop and has an anti-reflective and anti-fingerprint coatings.

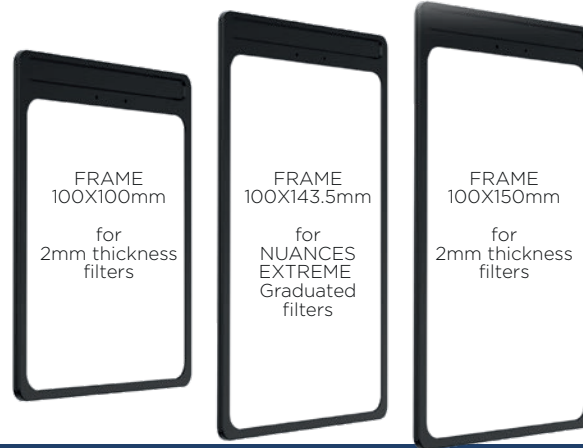

Specifications:

- Recommended operating temperatures: -10° to +40°C
- Recommended Relative humidity: 10% to 90%
- Compatibility: NX-Series 100mm filter-holder only
- Absorbance: 1 f-stop
- Glass material: Schott B270 high resolution mineral glass
- Individual pouch included
- Made in China

EAN code: 3 611 531 201 546
SKU: POL01NXS

FILTER-HOLDER SYSTEM NXSERIES

FILTER FRAMES

FILTER SYSTEM WALLET

The filter frames in aluminium are only compatible with the Cokin NX-Series 100mm filter-holder. Three different sizes are available to receive 100x100mm square filters such as Neutral density filters, 100x143.5mm to receive exclusively COKIN NUANCES Extreme graduated filters and 100x150mm to receive other manufacturer's filters. The filter frames are only compatible with filters having exactly 2mm thickness. The filter frame also includes one screwdriver to attach the filter in the frame, two spare screws and ten stickers to note the exact type of filter on the frame.

The perfect wallet to carry your complete NX-Series system without effort.

General specifications:

- Recommended operating temperatures: -10° to +40°C
- Recommended Relative humidity: 10% to 90%
- Material: aluminium
- Made in China

We designed this compact wallet to perfectly fit your complete NX-Series system. The wallet takes up to 6 filters in their frame, the filter-holder and a set of adapter rings. Your NX-Series system is perfectly protected and easy to carry with the wallet worn on the shoulder with its comfortable shoulder strap. A phosphorescent exposure guide is inserted in the front pocket to inform some shutter speeds calculation with popular ND filters such as ND1024, ND64 and ND8.

Depending on your needs several versions are available:

FRAME 100X100m

EAN code: 3 611 531 400 213
SKU: FR100NXS

DUO PACK (includes 2x filter frames 100x100mm)

EAN code: 3 611 531 400 169
SKU: FRD01NXS

FRAME 100X143.5m

EAN code: 3 611 531 400 220
SKU: FR143NXS

DUO PACK (includes 2x filter frames 100x143.5mm)

EAN code: 3 611 531 400 183
SKU: FRD03NXS

FRAME 100X150m

EAN code: 3 611 531 400 237
SKU: FR150NXS

DUO PACK (includes 2x filter frames 100x150mm)

EAN code: 3 611 531 400 190
SKU: FRD04NXS

COMBO PACK (includes 1x filter frame 100x100mm +1x filter frame 100x143.5mm)

EAN code: 3 611 531 400 176
SKU: FRD02NXS

Specifications:

- Recommended operating temperatures: -10° to +40°C
- Recommended Relative humidity: 10% to 90%
- Includes phosphorescent exposure chart
- shoulder strap, 1 front pocket, 2 inner pockets,
- 6 filter slots and rain-cover pockets, 6 filter slots,
- Rain-cover
- Made in China
