

POWERBASE

EDGE

**Power
your camera for
up to 10 hrs!**

The Powerbase Edge is the most versatile DSLR and small form Cine lithium ion battery pack. The 49wh, 14.8v, battery is featured-packed with two different mounting options - a 1/4-20 screw mount with a quick release plate or a standard v-mount. In addition, there is a 8v port for an adapter cable, a multipurpose runtime LCD, two USB outputs and two PowerTap outputs, one of which being a SmartTap. The battery pack is sold as an all-in-one kit and includes camera adapter cable and ptap charger.

#: NPF-SHD FlatPack

Designed for SmallHD Focus Monitors

Capacity: 7.2v, 7800mah

Size: 132 x 79 x 33mm

Weight: 0.35kg

The NPF-SHD is a near 60wh L-series type lithium ion battery pack design to provide a lower profile powering solution for the SmallHD Focus monitors.

It was designed to allow for full rotation of the monitor on the tilt arm while not blocking the air vents on the back of the monitor.

The battery pack features a 4-stage LED gauge along with a 7-17v DC input which allows you to power tap into the battery pack on larger camera rig configurations and route regulated power into the monitor. Should the DC input power be interrupted, the pack will seamlessly discharge from the battery cells. While the DC input allows for the added flexibility of charging the pack, the pack will charge from most L-series chargers as well.

#: NANO-U98

Capacity: 98wh (14.8v, 6600mah)

Size: 98 x 66 x 42mm

Weight: 0.41kg

**Normal Runtime: 8hrs.
based on Sony FS5 draw**

The Nano-M series addresses the need for a more "pro" style option of power for Small Form Cine cameras. The Nano-U98 is specifically designed for select Sony PMW/PXW Camcorders such as the Sony FS5. They are equipped with a 4-stage LED gauge, P-tap, and USB port. The P-Tap is a Smart Tap that is able to carry SMBUS/smart battery data which is a featured part of future integration. This power tap will serve as a standard power tap without need of special cabling.

These packs charge on OEM Sony chargers.

#: NANO-VBR98

Capacity: 98wh (7.4v, 13200mah)

Size: 102 x 66 x 42mm

Weight: 0.41kg

**Normal Runtime: 5hrs.
based on Panasonic EVA1 draw**

The Nano-M series addresses the need for a more "pro" style option of power for Small Form Cine cameras. The Nano-U98 is specifically designed for select Sony PMW/PXW Camcorders such as the Sony FS5. They are equipped with a 4-stage LED gauge, P-tap, and USB port. The P-Tap is a Smart Tap that is able to carry SMBUS/smart battery data which is a featured part of future integration.
