BMD-CINECAMPOCHDXBT 	BLACKMAGIC Pocket Camera Battery Grip Designed for the Blackmagic Pocket Cinema Camera 4K, the new Pocket Camera Battery Grip lets you replace the camera's standard LP-E6 battery with two L-series batteries so you can better power external flash disks or even shoot for over 2 hours on a single charge! It's perfect for anyone that needs to shoot for extended periods of time. Featuring a unique carbon fiber design, non-slip hand grips, and a slide out tray that holds 2 L-series batteries, the Pocket Camera Battery Grip also makes it easier to hold the camera on longer shoots. L-Series batteries are standard batteries used for a variety of professional lighting equipment, so they're readily available. You can even charge the batteries in the grip via the camera's 12V DC connection in between takes!	€ 235
BMD-CINSTUDMFT/UHD/MR 	BLACKMAGIC Micro Studio Camera 4K The Blackmagic Micro Studio Camera 4K is an incredibly tiny Ultra HD resolution camera that can be used in HD and Ultra HD video formats that can be fully controlled from the switcher via the SDI control protocol. Blackmagic Micro Studio Camera 4K includes 6G-SDI connections, built in color corrector, talkback, tally indicator, PTZ control output, built in microphones, backup battery, an adaptable MFT lens mount and B4 lens control output.	€ 1,205
	BLACKMAGIC Studio Camera The world's most advanced broadcast camera for live production. Inside its incredibly tough, lightweight magnesium alloy body you get a massive 10" viewfinder, talkback, tally indicators, phantom powered microphone connections and built in optical fiber (optional) and SDI connections that let you connect to your switcher with a single cable. The Blackmagic Studio Camera is available in HD and Ultra HD models, and is packed with all the advanced features you need for multi camera production and broadcast.	
BMD-CINSTUDMFT/HD/2	BLACKMAGIC Studio Camera (Without Fibre SFP Module & Built in Battery)	€ 1,389
BMD-CINSTUDMFT/UHD/2	BLACKMAGIC Studio Camera 4K (Without Fibre SFP Module & Built in Battery)	€ 1,585
	BLACKMAGIC URSA Mini Camera	
BMD-CINEURSAMUPRO12K  <i>lens not included</i>	Blackmagic URSA Mini Pro 12K Blackmagic URSA Mini Pro 12K is a revolution in digital film with a 12,288 x 6480 12K Super 35 sensor and 14 stops of dynamic range, built into the award winning URSA Mini body. The combination of 80 megapixels per frame, new colour science and the flexibility of Blackmagic RAW makes working with 12K a reality. Oversampling from 12K gives you the best 8K and 4K images with the subtle skin tones and extraordinary detail of high end still cameras. You can shoot at 60 fps in 12K, 110 fps in 8K and up to 220 fps in 4K Super 16. URSA Mini Pro 12K features an interchangeable PL mount, as well as built in ND filters, dual CFast and UHS-II SD card recorders, a SuperSpeed USB-C expansion port and more. DaVinci Resolve Studio is included for creative control through post from editing to colour, VFX and more. ***only available through specialist authorised resellers only***	€ 9,255
BMD-CINEURSAMUPRO4K6K2  <i>lens not included</i>	BLACKMAGIC URSA Mini Pro 4.6K G2 URSA Mini Pro 4.6K G2, is a professional digital film camera that combines incredible 4.6K image quality with the features and controls of a traditional broadcast camera. The second generation URSA Mini Pro features fully redesigned electronics and a new Super 35mm 4.6K HDR image sensor that combine to give you much higher frame rate shooting. You also get built in ND filters, an interchangeable lens mount, Blackmagic RAW support, and both dual CFast and SD UHS-II card recorders for capturing images at up to 300 frames per second. There's even a USB-C expansion port that lets you record directly to flash drives or SSD disks for even longer recording times. URSA Mini Pro 4.6K G2 features a massive number of controls intuitively positioned on the side of the camera so you can adjust most settings by feel, without ever having to take your eyes off the action. URSA Mini Pro is lightweight and comfortable enough to use all day, has controls that are extremely fast to use, and image quality that's far superior to broadcast cameras costing ten times more. ***PLEASE NOTE - This does not include Side Hand Grip or Lanc Cable***	€ 5,565
BMD-CINEURSAMC4K 	BLACKMAGIC URSA Broadcast URSA Broadcast is an advanced Ultra HD broadcast camera that works with your existing HD or Ultra HD B4 lenses, so you can shoot HD today and switch to Ultra HD when you're ready! You get professional broadcast controls, built in ND filters, non-stop 12-bit recording of ProRes and DNx files to dual SD UHS-II or CFast cards, and new extended video range for stunning broadcast ready shots that can go straight to air. URSA Broadcast is two cameras in one. Use it for production work or add a Blackmagic URSA studio Viewfinder to turn it into a live studio camera with remote control and built in colour corrector!	€ 3,235
BMD-CINEURSAMC4K/FUJIBDL 	BLACKMAGIC URSA Broadcast Fujii LA16 Bundle Blackmagic URSA Broadcast and Fujii LA16 Lens Bundle. Fujinon have designed the LA16 specifically for the Blackmagic URSA Broadcast to create the best lens performance with 4K and HD resolution. Compact and lightweight, the lens weighs only 1.6kg thanks in part due to its unique rear focus mechanism design. The size provides optimal balance with Blackmagic URSA Broadcast with 4K performance. Featuring a 16x zoom ratio suitable for EFP, news and studio shooting. The electronic flange back adjustment with macro switch function increases convenience when shooting. The use of FUJINON accessories enables precise control of zoom and focus while on a tripod. Mounting the camera on a tripod also enables efficient studio or field style shooting.	€ 7,375

Item Number	Camera Accessories	List Price (EUR)
BMD-CINEURSAHSSSD2 	BLACKMAGIC URSA Mini Recorder The Blackmagic URSA Mini SSD Recorder lets you record Cinema DNG or ProRes files onto standard 2.5" SSD media with URSA Mini Pro. Unlike other types of cards, SSD media is super-fast so you can record full resolution 4K and 4.6K 12-bit RAW files. URSA Mini SSD Recorder supports SSD's up to 4TB's, so you can record longer without having to change cards. The unique design of the Blackmagic URSA Mini SSD Recorder attaches directly to the back your URSA Mini Pro between the camera and the battery. It uses 6G-SDI as a data link to the camera so you don't have to worry about starting or stopping the SSD recorder. Everything is setup and controlled directly from the Camera.	€ 385
BMD-CINEURSAMFRCAM 	BLACKMAGIC Camera Fiber Converter The Blackmagic Camera Fiber Converter attaches to the back of your URSA Mini or URSA Broadcast camera. In addition to converting all of the audio, video, camera control and talkback into fiber, it also adds professional studio camera controls to the back of your camera. You get control for return feeds, dual intercom controls with the ability to mix in program audio, record, focus and iris controls, headset connectors, audio and more. The camera converter also includes a VLock mount plate on the top for attaching accessories such as a professional Blackmagic Studio Viewfinder. The Blackmagic Camera Fiber Converter has connections for your Ultra HD camera feed, 3 HD return feeds, full remote camera control, PTZ, multiple channels of talkback, tally and more.	€ 2,795
BMD-CINEURSANWFRSTUD 	BLACKMAGIC Studio Fiber Converter The Blackmagic Studio Fiber Converter is used at the other end of your broadcast camera chain back in the studio or outside broadcast truck. It converts signals from the remote camera back into standard television industry connections that can be used with your live production switchers, audio mixers and talkback interfaces. It features a high capacity power supply to drive the cable so it can provide enough power for your camera and any accessories that you might add. The studio fiber converter includes connections for tally, two dual channel intercoms for industry standard 3rd party talkback systems, and even a backup engineering talkback channel in case the fiber goes down. You get a main Ultra HD camera feed plus 3 independent HD return feeds with full remote camera control, PTZ, tracker talkback and ethernet, all through a single SMPTE fiber cable.	€ 2,795
BMD-CINEURSANWFRSUR 	BLACKMAGIC Studio Fiber Rack Kit Rack mount up to 2 Blackmagic Studio Fiber Converters side by side with this lightweight kit that's perfect for road cases or equipment racks.	€ 135
BMD-SWPANELCCU4 	BLACKMAGIC Atem Camera Control Unit The Atem Camera Control Panel is a compact remote camera control unit designed to control up to four different URSA Broadcast, URSA Mini, Blackmagic Studio or Blackmagic Micro Studio cameras. The control panel features traditional broadcast style controls and adjustments so a single person can monitor and adjust a wide range of technical parameters such as black levels, gain, colour balance, shutter speed and more. This leaves your camera operators free to focus on the more creative aspects of live production such as framing and composition. Unlike traditional CCU controllers, which have to be installed into a desk, the Atem Camera Control Panel has been designed to be portable so it can simply be placed on any desktop or bolted down so it can be mounted in a slide out rack shelf. The controls are arranged in a familiar and logical layout, making it perfect for both experienced and new operators. Plus, it works with all Atem switcher models.	€ 2,755
BMD-CINSTUDXURDO/3G	BLACKMAGIC 3G-SDI Arduino Shield SDI Arduino Shield lets customers build their own custom controllers for cameras and other SDI devices.	€ 89

Item Number	Production Switchers	List Price (EUR)
BMD-SWATEMMINI 	BLACKMAGIC ATEM Mini 4 HDMI input Live production switcher The new ATEM Mini makes it easy to create professional multi camera productions for live streaming to YouTube or innovative business presentations using Skype. Simply connect ATEM Mini and you can switch live between 4 high quality video camera inputs in dramatically better quality images. You can even connect to a computer to present PowerPoint slides or add a gaming console. The built in DVE allows exciting picture in picture effects, perfect for live commentary. There's loads of video effects too. To live stream, ATEM Mini has a USB output that works like a webcam, so you can connect to any video software. There's also HDMI video out for projectors. Microphone inputs allow high quality desktop and lapel mics for interviews and presentations. ATEM Mini even has secret broadcast features built in so it can do high end work.	€ 289
BMD-SWATEMMINIBPR 	BLACKMAGIC ATEM Mini Pro The ATEM Mini Pro has all of the same features as the Mini, with the additional added features, • Direct recording to USB flash disks in H.264 • Direct streaming via Ethernet to YouTube Live, Facebook Live and other networks • Multiview with 4 cameras, media, preview and program plus status of recording, streaming and audio	€ 569
BMD-SWATEMMINIBPRISO 	BLACKMAGIC ATEM Mini Pro ISO The ATEM Mini Pro ISO model lets you edit your live event because it can record 5 video streams, including clean feeds of all inputs and the program recording, all at the same time! Media pool images used are also saved with the video files. The video files include metadata tags such as synced timecode and camera numbers. Imagine re-editing your show with new colour grades, effects and graphics! Even the audio sources are all recorded so you can professionally remix your audio! The ATEM Mini Pro ISO model can also save a DaVinci Resolve project file, so with a single click, you can open your live production as a video edit. All cuts, dissolves and media pool graphics will be loaded. This means you can fine tune edit points or even completely replace shots! The DaVinci Resolve Sync Bin lets you select new shots via a Multiview so it's very easy to use. You can even relink to Blackmagic RAW camera files for adding professional color correction and finishing in Ultra HD!	€ 849
BMD-SWATEMMINISBPR 	BLACKMAGIC ATEM Streaming Bridge The ATEM Streaming Bridge is a video converter that lets you receive a H.264 stream from any ATEM Mini Pro and convert it back to SDI and HDMI video. This means you can send video to remote locations around your local Ethernet network, or via the internet globally. That's possible because it uses advanced H.264 codecs for higher quality at very low data rates. Imagine broadcasters and bloggers collaborating on shows and creating global networks of ATEM Mini Pro remote broadcast studios. Setup is easy as the ATEM software utility can create setup files that you can email to remote ATEM Mini Pro studios. ATEM Streaming Bridge is the perfect way use ATEM Mini Pro as a remote broadcast studio	€ 235
BMD-SWATEMTVSTU/HD 	BLACKMAGIC ATEM Television Studio HD ATEM Television Studio HD includes 4 SDI and 4 HDMI inputs so you can connect up to 8 sources and supports all formats up to 1080p60. Packed with high end broadcast features, ATEM Television Studio HD has re-sync on all inputs so you always get clean switching whether you're using professional or consumer cameras. Plus, you get multi view output so you can see all of your sources, preview and program on a single screen, aux out, built in talkback, 2 still stores, an audio mixer, camera control unit and more.	€ 929
BMD-SWATEMTVSTU/PROHD 	BLACKMAGIC ATEM Television Studio Pro HD ATEM Television Studio Pro HD is a broadcast quality all in one live production switcher with integrated hardware control panel designed for both broadcast and professional AV users. ATEM Television Studio Pro HD features 8 inputs, multiview, auxiliary and program outputs, analogue audio inputs, built in talkback, two flash based media players, professional creative transitions, a DVE for effects and more. ATEM Television Studio Pro HD combines a professional broadcast hardware control panel with a powerful 8 input switcher. It includes 4 SDI and 4 HDMI inputs, all with re-sync, so customers can connect a total of up to 8 different sources such as professional SDI broadcast cameras, consumer HDMI cameras, computers and even video game consoles.	€ 2,155
BMD-SWATEMTVSTU/PRO4K 	BLACKMAGIC ATEM Television Studio Pro 4K The new ATEM Television Studio Pro 4K model includes all the benefits of the HD models and now adds Ultra HD capability with more SDI inputs! With 8 independent 12G-SDI inputs, ATEM Television Studio Pro 4K can handle all popular HD and Ultra HD formats up to 2160p60. Each input features re-sync as well as a full low latency standards converter so input is automatically adapted to the switcher's format. That means you can even have 8 inputs, all running different video formats! The upgraded Fairlight audio mixer features dynamics, 8 band parametric EQ, dual mono channel split and stereo simulator with audio delay on the analog inputs. ATEM Television Studio Pro 4K also features the ATEM Advanced Chroma Keyer, Ultra HD multiview and motion clips in the media pool.	€ 2,795
BMD-SWATEMPSW4K 	BLACKMAGIC ATEM Production Studio 4K ATEM Production Studio 4K lets you connect up to 8 SD, HD or UltraHD 4K video cameras, disk recorders and computers for true broadcast quality work. It includes all the features you expect from a professional switcher including chroma key, transitions, media pool, downstream keyers, audio mixer, multi view and the world's first 6G-SDI and HDMI 4K video connections.	€ 1,605
BMD-SWATEMPSW1ME4K 	BLACKMAGIC ATEM 1 M/E Production Studio 4K The advanced ATEM 1 M/E Production Studio 4K model switches between SD, HD or Ultra HD video standards so you can connect a wide range of video sources such as cameras, disk recorders and computers. Featuring 10 inputs, chroma keys, transitions, media pool, 4 upstream keyers, downstream keyers, audio mixer, multi view, full motion DVE, stinger transitions, large media pool with full motion clips and 3 auxiliary outputs.	€ 2,339
BMD-SWATEMPSW2ME4K 	BLACKMAGIC ATEM 2 M/E Production Studio 4K The new ATEM 2 M/E Production Studio 4K lets you produce broadcast quality live multi camera production in SD, HD or Ultra HD. Featuring 20 inputs with built in re-synchronizers so you can connect the widest range of video sources such as cameras, disk recorders and computers for live music, sport and more. ATEM 2 M/E Production Studio 4K has advanced broadcast features such as chroma key, customizable transitions, upstream and downstream keyers, DVE, Super Source, audio mixer, 2 x multi views, media pool and more. You also get 6G-SDI and HDMI 4K connections and 6 auxiliary outputs for the most advanced live production switching.	€ 3,729
BMD-SWATEMRRW4ME4K 	BLACKMAGIC ATEM 4 M/E Broadcast Studio One of the world's most compact and advanced switchers with the new ATEM 4 M/E Broadcast Studio 4K. You get an incredibly high performance live production switcher designed to work with the latest formats and high frame rates, all the way up to Ultra HD 2160p59.94! You get 16 next generation ATEM Advanced Chroma Keyers with 4 per M/E, perfect for advanced work and virtual sets. As the most advanced ATEM switcher, this model also includes the latest technology and features such as 2 Ultra HD multi viewers, full 2D DVE, built in SuperSource compositing engine with 4 pictures in picture DVE's, full re-synchronization on each 12G-SDI input and much more! The multi rate 12G-SDI connections automatically switch between all HD and Ultra HD formats up to 2160p59.94 with a single BNC cable!	€ 5,629
BMD-SWATEMSCN4/1ME4/8K 	BLACKMAGIC ATEM Constellation 8K The new ATEM Constellation 8K is an Ultra HD live production switcher with so many features, you can combine them all to make an incredibly powerful 8K switcher. You get 4 M/Es, 40 x 12G-SDI inputs, 24 x 12G-SDI aux outputs, 4 DVEs, 16 Keyers, 4 media players, 4 multi viewers, 2 SuperSource and standards conversion on every SDI input. Then when switched to 8K, all these features combine to make a powerful 8K switcher. You even get built in talkback and a professional 156 channel Fairlight audio mixer with EQ and dynamics. That's an audio mixer so big, you can connect and use a full Fairlight audio console. ATEM Constellation 8K has also been designed as an ideal upgrade for ATEM Television Studio.	€ 9,359
BMD-SWPANELADV1ME 	BLACKMAGIC ATEM 1 M/E Advanced Panel The new ATEM 1 M/E Advanced Panel is an elegantly designed professional hardware control panel for all ATEM switchers. It combines modern design with the latest broadcast technology for faster workflows. The new design features a built in LCD and high quality curved buttons that help reduce incorrect key presses. The buttons also have colour backlighting to help you quickly recognize important keys. You also get a professional joystick for DVE and camera adjustments, smooth weighted T-bar fader and much more. The buttons feature dynamic displays that allow full customization of the labels as well as custom colours. The shift buttons allow you to double up the number of inputs by selecting a second set of shifted source buttons, so you can control up to 20 inputs.	€ 2,755

Item Number	Monitoring Continued	List Price (EUR)
BMD-HDLSMTVDUO2 	BLACKMAGIC SmartView Duo Get the ultimate in low cost SDI monitoring with SmartView Duo. Perfect for post production, broadcast or live events, SmartView Duo features two large 8 inch LCD screens in a compact rack mount design that's less than an inch thick. SmartView Duo handles all SD, HD and 3 Gb/s SDI video standards, and all screens can be remotely adjusted via your ethernet network.	€ 455
BMD-SMTV4K12G 	BLACKMAGIC SmartView 4K The world's first full resolution Ultra HD broadcast monitor with multi rate 12G-SDI, an extremely bright display with wide viewing angle, plus advanced broadcast features like 3D LUT support, HV delay, blue only and adjustable frame guides. SmartView 4K is compatible with all SD, HD and Ultra HD formats up to 2160p60. With both AC and DC power connections, SmartView 4K can be used in broadcast studios or on set.	€ 895
BMD-HDLSMTWSCOPEDUO4K2 	BLACKMAGIC SmartScope Duo 4K SmartScope Duo 4K looks like a SmartView Duo but adds independent waveform monitoring so you can select between waveform, vectorscope, RGB parade, YUV parade, histogram and audio phase level displays. Each monitor is independent so can display any combination of scope or picture view.	€ 725
Item Number	Multiview	List Price (EUR)
BMD-HDL-MULTIP3G/04HD 	BLACKMAGIC MultiView 4 HD MultiView 4 HD model is a low cost multi view that lets you simultaneously monitor 4 different SDI video sources on a single display. Each view is a completely independent video monitor with overlays that you can turn on and off such as custom labels, audio meters and more. Full frame re-synchronization on each input lets you monitor any combination of video signals, even if they are different frame rates.	€ 179
BMD-MULTIP6G/04 	BLACKMAGIC MultiView 4 MultiView 4 has four completely independent 6G-SDI inputs that work with all SD, HD and Ultra HD formats up to 2160p30. Simply connect your sources and you'll get a standard 2x2 grid view on an HD or Ultra HD television.	€ 475
BMD-MULTIP6G/16 	BLACKMAGIC MultiView 16 Monitor up to 16 SDI sources using an Ultra HD monitor or television so you get twice the resolution per view. Monitor from SD, HD or Ultra HD-SDI sources in any combination, in any order. Features full frame re-sync on each input.	€ 1,409

BMD-BDKULSDMINI4K 	BLACKMAGIC Design UltraStudio 4K Mini. UltraStudio 4K Mini is a portable Thunderbolt 3 capture and playback solution packed with the latest broadcast technology! You get 12G-SDI, HDMI 2.0 and analogue connections for broadcast quality 8, 10 and 12-bit high dynamic range capture in all formats from SD up to 4K DCI at 60 frames per second. Plus, the built in SD card reader lets you mount camera media directly on your computer so you can start editing immediately.	€ 895
BMD-BDKULSDMINHD 	BLACKMAGIC UltraStudio HD Mini UltraStudio HD Mini is a portable Thunderbolt 3 capture and playback solution that's small enough to take anywhere and powerful enough to work on high end projects. It can capture and playback all formats up to 1080p60 in full 10-bit YUV, or up to 1080p30 and 2K DCI in 12-bit RGB. UltraStudio HD Mini features HDMI output for monitoring on a big screen television, dual 3G-SDI outputs for fill and key playback, plus analog audio and video inputs for digitizing and archiving materials from older analog decks.	€ 455
BMD-BDKULSR4KEXTR3 	BLACKMAGIC UltraStudio 4K Extreme 3 Advanced 40Gb/s Thunderbolt 3 and PCIe solution with 12G SDI, HDMI 2.0, Analog, 4:4:4, Ultra HD and 4K up to 2160p60 and hardware encoder for H.265. Features 12G-SDI with loop outputs for working with 2160p60 over a single cable. Also includes HDMI 2.0, analog component, 4 channel XLR analog and 2 channels AES/EBU digital audio, timecode, reference and serial deck control. Connects via Thunderbolt or with an optional PCIe adapter for higher frame rates and 4K RGB workflows.	€ 2,695
BMD-BDKULSDMBREC3G	BLACKMAGIC UltraStudio Monitor 3G Now you can connect Thunderbolt 3 computers to any kind of video equipment for building high performance edit workstations, archiving from old broadcast decks, outputting broadcast graphics and even live streaming. Simply connect to the Thunderbolt 3 port to get a wide range of video and audio connections that operate in all SD and HD formats up to 60 frames per second.	€ 105
BMD-BDKULSDMAREC3G	BLACKMAGIC UltraStudio Recorder 3G Now you can connect Thunderbolt 3 computers to any kind of video equipment for building high performance edit workstations, archiving from old broadcast decks, outputting broadcast graphics and even live streaming. Simply connect to the Thunderbolt 3 port to get a wide range of video and audio connections that operate in all SD and HD formats up to 60 frames per second.	€ 105
Item Number	Accessories	List Price (EUR)
BMD-BDKULSR4KEXTSPK	BLACKMAGIC PCIe Cable Kit for Ultrastudio 4K Extreme	€ 239
Item Number	Streaming & Encoding	List Price (EUR)
BMD-BDKWEBPTR 	BLACKMAGIC Web Presenter Web Presenter makes any SDI or HDMI video source appear as a USB webcam for higher quality web streaming using software such as Skype or streaming platforms such as YouTube Live, Facebook Live, Twitch.tv, Periscope and more. Web Presenter includes 12G-SDI and HDMI inputs, an XLR microphone input, HiFi audio input, and Teranex quality down conversion for converting any SD, HD or Ultra HD video source to 720p for easy, low data rate, high quality streaming. Plus, Blackmagic Web Presenter can even live switch programs using its built in 2 input production switcher if you add the optional Teranex Mini Smart Panel.	€ 475
BMD-VIDPROREC 	BLACKMAGIC H264 Pro Recorder H.264 Pro Recorder is for the industry professional who needs professional encoding from SDI, HDMI, analog component/composite and balanced audio! H.264 Pro Recorder includes Blackmagic Design's powerful Media Express for frame accurate deck control with EDL import.	€ 455

Item Number	PCIe Editing, Design & Print	List Price (EUR)
 BMD-BDLKSDI4K	BLACKMAGIC DeckLink SDI 4K DeckLink SDI 4K is the world's smallest and most affordable multi rate SD/HD and Ultra HD SDI video card that lets you connect to any SD, HD-SDI, 2K and Ultra HD equipment. You also get RS422 deck control, internal keying and reference input for a complete solution for editing, paint, design and more.	€ 275
 BMD-BDLKMINIMON	BLACKMAGIC DeckLink Mini Monitor Monitor uncompressed 10-bit video from your computer. Includes 3G-SDI and HDMI outputs for connecting to any television or monitor. DeckLink Mini Monitor auto switches between SD and HD so it handles all common video formats. DeckLink Mini Monitor is the perfect solution for monitoring from editing software while you edit. Includes two PCIe shields for both full height and low profile slots.	€ 135
 BMD-BDLKMINIREC	BLACKMAGIC DeckLink Mini Recorder Record uncompressed 10-bit video using from 3G-SDI and HDMI video sources. DeckLink Mini Recorder switches between SD and HD video formats and is perfect for building ingest servers or other video solutions where you need to capture only in a low profile card! Includes two PCIe shields for both full height and low profile slots.	€ 135
 BMD-BDLKMINIMON4K	BLACKMAGIC DeckLink Mini Monitor 4K DeckLink Mini Monitor 4K delivers better than broadcast quality SDI and HDMI monitoring and playback in all formats up to 2160p30, making it incredibly popular with editing and color correction customers who work with systems such as DaVinci Resolve. The outputs automatically switch between all video formats, making it perfect for use with televisions, professional monitors and the latest HDMI projectors. In addition, support for HDR playback.	€ 179
 BMD-BDLKMINIREC4K	BLACKMAGIC DeckLink Mini Recorder 4K DeckLink Mini Recorder 4K lets customers capture broadcast quality video directly from SDI and HDMI sources like decks and cameras to their computer. The low profile design of DeckLink Mini Recorder 4K makes it incredibly versatile and ideal for integrating into mobile live capture environments and outside broadcast trucks. Works with uncompressed and compressed video in open standard file formats such as QuickTime and DPX so they are compatible with virtually all professional editing, color correction and visual effects software.	€ 179
 BMD-BDLKDUO2	BLACKMAGIC DeckLink Duo 2 Featuring 4 independent 3G-SDI connections, DeckLink Duo 2 is a PCIe capture and playback card that supports SDI formats in SD and HD up to 1080p60. You get the flexibility of 4 separate capture or playback cards in one. Plus, it's completely customizable so it's perfect for media play-out systems, multi screen digital signage servers, real time multi channel capture systems and more.	€ 455
 BMD-BDLKDUO2LP	BLACKMAGIC DeckLink Duo 2 Mini	€ 455
 BMD-BDLKSTUDIO4K	BLACKMAGIC DeckLink Studio 4K DeckLink Studio 4K includes a number of analog and digital video connections including SD/HD/Ultra HD 6G-SDI, HDMI 1.4b, SD/HD component, composite, S-video, 4 ch balanced analog audio, 2 ch AES/EBU switchable to 6 ch out, black burst and tri-sync reference input, RS-422 deck control connections, keying in SD and a hardware down converter. Perform editing, paint and broadcast design and more with the ultimate future proof design.	€ 545
 BMD-BDLKHCPRO8K12G	BLACKMAGIC DeckLink 8K Pro DeckLink 8K Pro is an advanced 8 lane PCI Express capture and playback card designed for the next generation of high resolution 8K workflows. Featuring four 12G-SDI connections, DeckLink 8K Pro supports all SD, HD, Ultra HD, 4K, 8K and 8K DCI frame sizes. DeckLink 8K Pro works in 8 and 10-bit YUV 4:2:2 as well as 10 and 12-bit RGB 4:4:4 with full Rec. 2020 support, giving you deep color for true digital cinema quality images! In addition, you can work at up to 60 frames per second up to 8K, as well as up to 64 channels of audio. The connections are also bi-directional so you can use them to either capture or playback quad link 8K, or they can be used for simultaneous capture and playback of single or dual link SDI sources!	€ 585
 BMD-BDLKHDEXTR4K12G	BLACKMAGIC DeckLink 4K Extreme 12G The ultimate digital cinema capture card featuring two full frame DCI 4K inputs and outputs via 12G-SDI. You get dual link multi rate 12G-SDI connections that work with SD, HD and Ultra HD even in Ultra HD 60p, as well as full frame DCI 4K at 4096 x 2160 resolution up to 60p. Capture 10-bit YUV or full color bandwidth 12-bit RGB. Includes AES/EBU audio, up, down and cross conversion, plus built in 3D stereoscopic output at full bandwidth 4:4:4:4 RGB. No other capture and playback card supports more video formats and video connections.	€ 815
 BMD-BDLKHDEXTR4KHDMI2	BLACKMAGIC DeckLink 4K Extreme 12G Expansion Plate - HDMI 2.0	€ 89
 BMD-BDLKHDEXTR4KQUAD	BLACKMAGIC DeckLink 4K Extreme 12G Expansion Plate - Quad SDI	€ 89
 BMD-BDLKDVQ2	BLACKMAGIC DeckLink Quad 2 Features 8 independent SDI capture and playback channels in a single card. Fully compatible with the previous 4 channel model, this new model also allows 4 independent capture and playback channels but now also includes 4 extra channels that developers can use for configuring the card in any combination of up to 8 capture or 8 playback channels. This means DeckLink Quad 2 allows each of the 8 3G-SDI BNC connectors to switch direction between capture or playback in SD and HD up to 1080p60 and as a complete independent channel.	€ 895
 BMD-BDLKDVQDHDMI4K	BLACKMAGIC DeckLink Quad HDMI Recorder DeckLink Quad HDMI Recorder is a high performance 8-lane Generation 3 PCIe capture card that can transfer data at rates up to 32Gb per second. Featuring 4 independent HDMI 2.0b input connections for multi-channel capture, DeckLink Quad HDMI Recorder can capture 4 different streams of video at up to 60 frames per second. Each HDMI input connection can capture a completely different video standard or computer input signal, so it's like getting 4 capture cards in one.	€ 495
 BMD-BINTSPRO4K	BLACKMAGIC Intensity Pro 4K Intensity Pro 4K is a new super fast PCIe card that allows capture and playback of extremely high quality SD, HD and Ultra HD video on Windows, Mac and Linux PCI Express computers. Capture NTSC, PAL, 720HD, 1080HD and Ultra HD, the newest broadcast video standard. Regular 1080HD can be captured at up to 60 frames per second.	€ 179
Item Number	I/O Card Accessories	List Price (EUR)

Item Number	Teranex Video Processing Products	List Price (EUR)
 BMD-CONVN8TRM/AA/SDIH	BLACKMAGIC Teranex Mini - SDI to HDMI 8K HDR Teranex Mini SDI to HDMI 8K HDR is an advanced 8K monitoring solution for large screen televisions and video projectors. Unlike basic converters, Teranex Mini can use third party calibration probes to accurately align connected displays for precise colour. There are 2 on-screen scopes that can be selected between WFM, Parade, Vector and Histogram. Teranex Mini SDI to HDMI 8K HDR is perfect for film studios and broadcasters who need professional but affordable colour accurate monitoring.	€ 1,219
 BMD-CONVN8TRM/AA/SDIDP	BLACKMAGIC Teranex Mini - SDI to DisplayPort 8K HDR Teranex Mini 8K HDR is an advanced 8K monitoring solution for large screen televisions, video projectors and DisplayPort monitors. Unlike basic converters, Teranex Mini 8K HDR can use third party calibration probes to accurately align connected displays for precise colour. There are 2 on-screen scopes that can be selected between WFM, Parade, Vector and Histogram, and Histogram. Teranex Mini SDI to HDMI 8K HDR is perfect for film studios and broadcasters who need professional but affordable colour accurate monitoring, while Teranex Mini SDI to DisplayPort 8K HDR also works with the latest 8K DisplayPort monitors. You also get an elegant design with colour LCD for monitoring and control of settings.	€ 1,219
 BMD-CONVNTRM/AA/SDIH	BLACKMAGIC Teranex Mini - SDI to HDMI 12G Convert from 12G-SDI to HDMI. Supports all video formats including SD, HD, 6G and 12G-SDI rates and includes down converter when working with Ultra HD as the HDMI monitor will select the best format it can support. De-embed audio to balanced analog or AES/EBU formats and timecode output. Perfect for using HDMI televisions as SDI broadcast monitors and for connecting to video projectors.	€ 475
 BMD-CONVNTRM/AB/HSDI	BLACKMAGIC Teranex Mini - HDMI to SDI 12G Convert from HDMI to 12G-SDI. Works with all video formats including SD, HD, 6G and 12G-SDI rates and includes an up converter for converting HD to Ultra HD. Embed audio from balanced analog or AES/EBU and timecode input. Ideal for converting HDMI consumer cameras to SDI, or adding SDI outputs to computers with HDMI connections.	€ 475

	BLACKMAGIC Teranex Mini - SDI to Analog 12G Convert from 12G-SDI to Analog. Use SD, HD, 6G and 12G-SDI rates and convert to analog video output. Built in down converter lets you connect Ultra HD sources to component video equipment in SD or HD. Allows you to connect analog equipment including Betacam SP, VHS, and video monitors.	€ 475
	BLACKMAGIC Teranex Mini - Analog to SDI 12G Convert from analog video to 12G-SDI. Convert incoming analog video signals to SD, HD, 6G and 12G-SDI. Ideal for converting your analog devices such as Betacam SP, VHS, set top boxes, gaming consoles and HDV cameras to incredible quality SD/HD/Ultra HD SDI video up to 2160p60.	€ 475
	BLACKMAGIC Teranex Mini - SDI to Audio 12G De-embed audio from any SD, HD or Ultra HD SDI video connection and output 2 channels of analog audio to balanced XLR, optical or HiFi RCA, or output up to 4 channels of AES/EBU digital audio. Perfect for converting and outputting SDI audio to a massive range of audio equipment such as audio mixers, iPods, analog broadcast decks, audio monitors and more.	€ 475
	BLACKMAGIC Teranex Mini - Audio to SDI 12G Embed up to 2 channels of audio from balanced analog, optical or HiFi RCA, or embed up to 4 channels of AES/EBU digital audio into any SD, HD, Ultra HD or DCI 4K SDI video connection. Take audio from devices such as audio mixers, iPods and analog decks and embed it into SDI video connections for use with SDI routers and decks.	€ 475
	BLACKMAGIC Teranex Mini - SDI Distribution 12G Distribute a single SDI video input to up to eight SDI outputs. Features the latest multi rate 12G-SDI connections with full SDI re-clocking allowing the converter to automatically switch between all SD, HD and Ultra HD formats up to 2160p60. Perfect for distributing a single SDI signal to multiple devices such as monitors, switchers and encoders.	€ 475
	BLACKMAGIC Teranex Mini - 12G-SDI to Quad SDI Convert 12G-SDI to Quad Link SDI so you can connect the latest 12G-SDI Ultra HD equipment with Quad Link Ultra HD equipment. Also allows Ultra HD SDI to be separated into four HD SDI outputs for using regular HD displays for creating video wall style displays. Includes 12G-SDI loop through and support for both Level A and Level B 3G-SDI equipment.	€ 475
	BLACKMAGIC Teranex Mini - Quad SDI to 12G-SDI Convert Quad Link SDI to 12G-SDI so you can connect Quad Link Ultra HD equipment to the latest 12G-SDI Ultra HD equipment. Allows equipment that uses four BNC cables to be connected using a single 12G-SDI BNC cable for connecting to the latest routers, switchers, projectors and more! Supports both Level A and Level B 3G-SDI equipment.	€ 475
	BLACKMAGIC Teranex Mini - Optical to HDMI 12G - SFP Module not included. Convert from 12G optical fiber and 12G-SDI to HDMI. Supports all video formats including SD, HD, 6G and 12G-SDI rates and includes down converter when working with Ultra HD as the HDMI monitor will select the best format it can support. De-embed audio to balanced analog or AES/EBU formats and timecode output. Perfect for using HDMI televisions as SDI broadcast monitors and for connecting to video projectors.	€ 475
	BLACKMAGIC Teranex Mini - HDMI to Optical 12G - SFP Module not included. Convert from HDMI to 12G optical fiber and 12G-SDI. Works with all video formats including SD, HD, 6G and 12G-SDI rates and includes an up converter for converting HD to Ultra HD. Embed audio from balanced analog or AES/EBU and timecode input. Ideal for converting HDMI consumer cameras to SDI, or adding SDI outputs to computers with HDMI connections.	€ 475
	BLACKMAGIC Teranex Mini - IP Video 12G - SFP Module not included. Now you can convert video to IP and route it over your existing ethernet network, or you can convert IP video back to SDI. Teranex Mini IP Video 12G uses standard Blackmagic Videohub software and hardware control panels to configure and switch IP video over ethernet as easily as SDI signals! You get 12G-SDI and the low latency broadcast quality TICO codec so you can route HD over the built in gigabit ethernet connection or Ultra HD over 10G ethernet with an optional 10G SFP.	€ 475
Item Number	Accessories	
	BLACKMAGIC Teranex Mini - Smart Panel The Teranex Mini's optional front panel includes straight forward push buttons and a built in LCD screen for easier set up. The LCD screen also displays the video going through each of your converters. The front panel is perfect when you're out in the field or on set without external monitors, or even when you have multiple converters mounted in equipment racks and just want to see what's going through them all.	€ 85
	BLACKMAGIC Teranex Mini - Rack Shelf Teranex Mini are designed to be racked side by side, with three converters fitting in 1RU, six in 2RU, and nine in 3RU. When multiple units are racked side by side, variable speed fans pull from one unit into the next to facilitate optimal air flow. If a fan fails adjacent Teranex Mini will increase fan speed, to prevent overheating.	€ 85
Item Number	Video and Audio Converters Ultra HD	List Price (EUR)
	BLACKMAGIC Micro Converter - BiDirect SDI to HDMI Micro Converter BiDirectional SDI/HDMI is the world's smallest broadcast quality bidirectional video converter. You can simultaneously convert SDI to HDMI and HDMI to SDI in any combination of SD and HD formats up to 1080p60 at the same time. Each conversion direction can be a different SD or HD video standard, so it's like getting two converters in one! The multi-rate 3G-SDI input and output connections are compatible with virtually all professional broadcast equipment, including Level A and B devices.	€ 65
	BLACKMAGIC Micro Converter - BiDirect SDI to HDMI with Power Supply	€ 75
	BLACKMAGIC Micro Converter - HDMI to SDI with Power Supply HDMI output from laptop computers or consumer cameras and convert it to SDI for use with broadcast switchers, routers, monitors and more! The multi rate 3G-SDI automatically switches between all SD and HD formats up to 1080p60. 2 x SDI outputs, support for Level A and Level B equipment, and power over USB	€ 55
	BLACKMAGIC Micro Converter - SDI to HDMI with Power Supply Convert from SDI to HDMI so you can output video from professional SDI video equipment to consumer HDMI televisions, projectors and more! The multi rate 3G-SDI automatically switches between all SD and HD formats up to 1080p60. 3G-SDI loop through, support for Level A and Level B equipment, and power over USB	€ 59
	BLACKMAGIC Micro Converter - HDMI to SDI without Power Supply (Only Available in Pack of 20) HDMI output from laptop computers or consumer cameras and convert it to SDI for use with broadcast switchers, routers, monitors and more! The multi rate 3G-SDI automatically switches between all SD and HD formats up to 1080p60. 2 x SDI outputs, support for Level A and Level B equipment, and power over USB	€ 39
	BLACKMAGIC Micro Converter - SDI to HDMI without Power Supply (Only Available in Pack of 20) Convert from SDI to HDMI so you can output video from professional SDI video equipment to consumer HDMI televisions, projectors and more! The multi rate 3G-SDI automatically switches between all SD and HD formats up to 1080p60. 3G-SDI loop through, support for Level A and Level B equipment, and power over USB	€ 45
	BLACKMAGIC Mini Converter - SDI to HDMI 6G Mini Converter SDI to HDMI 6G lets you convert from SDI to HDMI in SD, HD, and Ultra HD formats while de-embedding audio to HDMI, AES/EBU or balanced analog audio. You also get advanced features such as down conversion for monitoring Ultra HD on HD HDMI monitors as well as built in 3D LUTs plus HDMI instant lock for instant video display when an SDI input is connected.	€ 179
	BLACKMAGIC Mini Converter Quad SDI to HDMI 4K 2 Connect Single Link 6G-SDI, Dual Link 3G-SDI or Quad Link HD-SDI to the newest HDMI 4K projectors and televisions that support Ultra HD over a single HDMI link. Includes SDI/HD and Ultra HD auto switching	€ 475
	BLACKMAGIC Mini Converter - HDMI to SDI 6G Mini Converter HDMI to SDI 6G includes everything you need to convert from HDMI devices to SDI video in SD, HD and Ultra HD video formats. With independent audio connections you can also embed SDI audio from HDMI, AES/EBU or balanced analog audio inputs. Mini Converter HDMI to SDI is the perfect solution to convert HDMI consumer cameras or computers to broadcast quality SDI.	€ 145
	BLACKMAGIC Mini Converter - SDI to Analogue 4K Convert from SD, HD, 3G and 6G-SDI video to analog in HD/SD component, NTSC and PAL video. The built in down converter means you can even connect Ultra HD sources to component video in SD or HD as well as NTSC and PAL video. Easily connect any analog equipment such as Betacam SP, VHS, and video monitors.	€ 289

BMD-CONVMOF12G	BLACKMAGIC Mini Converter Optical Fiber 12G - SFP Module not Included. Converts 6G-SDI to Optical Fiber, and Optical Fiber to 6G-SDI simultaneously. Mini Converter Optical Fiber automatically switches between any SD, HD and UltraHD video standards and each direction can be completely independent.	€ 149
BMD-CONVMCSAUD4K	BLACKMAGIC Mini Converter SDI to Audio 4K Includes everything you need to de-embed 4 channels of analog audio or 8 channels of AES/EBU digital audio from any SDI video connection. Now you can access the audio in any SDI video connection for output to a massive range of audio equipment such as audio mixers, analog broadcast decks, audio monitors and more.	€ 289
BMD-CONVMCAUDS4K	BLACKMAGIC Mini Converter Audio to SDI 4K Includes everything you need to embed 4 channels of analog audio or 8 channels of AES/EBU digital audio into any SDI video connection. Now you can embed professional audio from devices such as audio mixers and analog decks into SDI video connections for use with SDI routers and decks or to add extra audio channels to video converters.	€ 289
BMD-CONVMSDIDA4K	BLACKMAGIC Mini Converter - SDI Distribution 4K Connect a single SDI source to 8 re-clocked SDI outputs with automatic switching between all SD-SDI, HD-SDI, 3G-SDI and 6G-SDI video formats, plus all ASI, ancillary and embedded audio formats.	€ 289
BMD-CONVMSDIMUX4K	BLACKMAGIC Mini Converter SDI Multiplex 4K Convert between Quad Link HD-SDI, Dual Link 3G-SDI and Single Link 6G-SDI Ultra HD equipment. Mini Converter SDI Multiplex includes 4 x 3G-SDI inputs and 4 x 3G-SDI outputs so it can convert in both directions. Also converts between Dual Link HD-SDI 4:4:4 and Single Link 3G-SDI.	€ 475

BMD-VHUB/WSC/PRO	 BLACKMAGIC Videohub Smart Control Pro Videohub Smart Control Pro lets you route with a single button press. Program each button for a single router cross point and when pressed the route is made. You can program to have multiple destinations and even a take button. Powers via DC or the Ethernet connection.	€ 659
BMD-VHUB/WMSTRCRL/PRO	 BLACKMAGIC Videohub Master Control Pro Videohub Master Control Pro lets you scroll your router sources and destinations with the easy to use spin knob control or via direct button entry. You can even see all routes on the beautiful LCD. Powers via DC or the Ethernet connection.	€ 659
BMD-VHUBSMTC56G1212	 BLACKMAGIC Smart Videohub CleanSwitch 12x12 Compact 6G-SDI router with built in re-synchronizers on all inputs allows clean switching between all video sources of the same video standard, and can be used as 12 re-synchronizers for automatic re-timing of SDI feeds. Smart Videohub CleanSwitch supports 12 inputs and 12 outputs in virtually all SD, HD and Ultra HD video formats. Supports multiple formats on the same router at the same time and will clean switch between multiple formats that match the reference frame rate when the switching is between the same video standard. Includes front panel button and spin knob routing, elegant machined metal front panel with LCD for routing display and video monitoring and remote Ethernet control.	€ 1,409
	BLACKMAGIC Smart Videohubs The world's first Ultra HD mixed format routers with built in video monitoring and spin knob router control. Smart Videohub includes the latest 6G-SDI technology so you can simultaneously connect and route any combination of SD, HD and Ultra HD video all on the same router at the same time. You also get revolutionary new visual routing that lets you see your router connections as video on the built in LCD as you scroll the knob to select your routing. Now you can route your video simply by looking at the video.	
BMD-VHUBSMART6G1212	BLACKMAGIC Smart Videohub 12x12	€ 1,325
BMD-VHUBSMART6G2020	BLACKMAGIC Smart Videohub 20x20	€ 1,865

BMD-VHUBSMART6G4040	BLACKMAGIC Smart Videohub 12G 40x40	€ 4,665
Universal Videohubs If you're looking for true redundancy and the ability to build your own router with both BNC SDI and optical fiber SDI, then Universal Videohub is the perfect choice. It comes in two models for a maximum 72 x 72 or 288 x 288 crosspoint size, and because every module in the router is card based, you can mix and match components, and hot swap cards in the unlikely event of failure.		
	BLACKMAGIC Universal Videohub 72 Universal Videohub 72 is a fully scalable 3G/HD/SD and deck control routing switcher. Add either regular copper SDI or optical fiber SDI interface cards as you need, up to a 72 x 72 SDI size router. The Universal Videohub 72 rack frame is only 5 RU and 6 inches deep and can support a single 72 x 72 crosspoint card and a single power supply card. You get full auto standard detection, re-clocking, 3 Gb/s SDI support, 72 x 72 deck control, ethernet/serial control and more. Universal Videohub 72 is a fantastic medium sized router that lets you grow. When you're ready to upgrade, all SDI interface cards, crosspoint and power supply cards can be installed into the larger Universal Videohub 288 chassis.	
BMD-VHUBV/72CH	BLACKMAGIC Universal Videohub 72	€ 2,795
BMD-VHUBV/72XP	BLACKMAGIC Universal Videohub 72 Crosspoint	€ 2,695
	Universal Videohub 288 The Universal Videohub 288 is the ultimate 3G/HD/SD and deck control routing switcher. With a choice of 72 x 72 or 288 x 288 crosspoint cards, the frame can be easily upgraded using our hot swappable regular BNC SDI or optical fiber interface modules that also include full deck control. If you need redundancy then simply add a second crosspoint card for true 24/7 reliability. All inputs have auto standards detection and all outputs are re-clocked. Universal Videohub 288 features an 18 rack unit frame that is less than 6 inches deep. You also get ethernet and serial connectivity, third party control and redundant power supplies. Universal Videohub 288 lets you start small for an affordable cost and then expand its size and even add full redundancy as your needs grow.	
BMD-VHUBV/288CH	BLACKMAGIC Universal Videohub 288	€ 9,359

BMD-DV/STUFUS	BLACKMAGIC Fusion Studio Fusion Studio for Windows is the world's most advanced compositing software for visual effects artists, broadcast, motion graphic designers and 3D animators. Fusion includes all of the tools you need to create spectacular visual effects and advanced 3D motion graphics. The powerful and unique flow graph interface helps you easily build sophisticated composites by simply connecting nodes together. True 3D compositing environment lets you combine live action, 3D models, cameras, lights, 3D particles, volumetric effects and powerful image processing tools, all within a single application.	€ 269
BMD-DV/RESSTUD	BLACKMAGIC DaVinci Resolve 16 Studio Activation Key DaVinci Resolve for Mac and Windows is the world's most advanced color correction as a software only solution compatible with high performance GPU cards and off the shelf control panels including the Tangent Devices Element™, JL Cooper Eclipse CX™ and the Avid Artist Color™ control panels. Includes 32-bit float YRGB processing for all effects, power windows, tracking, primaries and secondaries and 3D object tracker. Great first color correction solution when you are working heavily in SD and HD.	€ 269
BMD-DV/RESSTUDDONGLE	BLACKMAGIC DaVinci Resolve Studio 16 Dongle	€ 269
BMD-DV/RES/BBPNLMIC	BLACKMAGIC DaVinci Resolve Micro Panel The DaVinci Resolve Micro Panel is a high quality, portable low profile panel that features three high resolution trackballs and 12 precision machined control knobs for accessing all essential primary color correction tools. Above the center trackball are keys for switching between log and offset color correction, as well as a key to display DaVinci Resolve's full screen viewer, which is great for use with laptops. Eighteen dedicated keys on the right side also give you access to the most commonly used grading features and playback controls. DaVinci Resolve Micro Panel is perfect for independent editors and colorists that need a truly portable solution, great on set to create looks and evaluate color and lighting, ideal for quickly grading video in broadcast trucks, great for education and much more.	€ 915
BMD-DV/RES/BBPNLMINI	BLACKMAGIC DaVinci Resolve Mini Panel The DaVinci Resolve Mini Panel is a compact panel that's packed with a massive combination of features and controls. Like the micro panel, you get three professional trackballs along with a variety of buttons for switching tools, adding color correctors and navigating your node tree. It also features two color LCD screens that display menus, controls and parameter settings for the selected tool, along with direct access buttons that let you go direct to the menus for specific DaVinci features. The DaVinci Resolve Mini Panel is ideal for editors and colorists that need to regularly switch between editing and color grading, or for freelance colorists that need to take their panel with them when moving between facilities! The mini panel is also great for colorists working on location shoots, for corporate and event videographers, houses of worship and more.	€ 2,755
BMD-DV/RES/AADPNL	BLACKMAGIC DaVinci Resolve Advanced Panel - Includes Resolve 12 Software ***Resolve is only available through specialist authorised resellers only*** When you working with demanding clients then it's time to upgrade to DaVinci Resolve with control surface. This is the full version of DaVinci Resolve that includes the full DaVinci Resolve control surface, plus a license of the DaVinci Resolve 12 Studio. you get the power of a full DaVinci Resolve system with single GPU. The amazing DaVinci Resolve control surface has been designed by colorists to work together in total harmony with the DaVinci Resolve software. Controls have been placed near your natural hand positions and lift, gamma and gain can all be adjusted at the same time. Each correction control has a separate button or knob so you can instinctively reach out and touch every part of your image.	€ 27,595
BMD-DV/RES/BBPNMLEKB	BLACKMAGIC DaVinci Resolve Editor Keyboard The DaVinci Resolve Editor Keyboard is designed for professional editors who need to work faster and turn around work quickly. More than just a simple keyboard, the DaVinci Resolve Editor Keyboard has been designed as an alternative way to edit that's much faster than a mouse because you can simultaneously use both hands at the same time. You also get an integrated search dial built right into the keyboard. Simply plug the keyboard into any USB-C computer and you are ready to go. While most keys will work as a standard USB keyboard, the DaVinci Resolve Editor Keyboard has been designed for DaVinci Resolve 16 to enable an editing experience that's dramatically faster than previously possible.	€ 895
BMD-PSATEM12V70W	BLACKMAGIC Power Supply DaVinci/ATEM 12v 70w	€ 85

BMD-ULTMKEY11	BLACKMAGIC Ultimatte 11 The Ultimatte 11 HD/SD is the next generation, multi-definition, blue/green screen, compositing device. If your studio is set up for HD or SD, or you are planning to change from SD to HD, the Ultimatte 11 HD/SD is the perfect real-time compositing device. The Ultimatte 11 HD/SD has been designed to address the needs of virtual studios. With enhanced Matte controls, streamlined Ambiance controls, in addition to complete FG and BG RGB color controls, the Ultimatte 11 HD/SD "places" the FG subject in the new environment in a very natural and realistic way.	€ 9,359
BMD-ULTMKEY12	BLACKMAGIC Ultimatte 12 The all new Ultimatte 12 is more than the world's best keyer, it's an advanced real time compositing processor designed for the next generation of broadcast graphics. Ultimatte 12 features entirely new algorithms and color science that deliver true photorealistic composites. You get incredible edge handling, greater color separation, amazing color fidelity and better spill suppression than ever before, even in dark shadow areas or through transparent objects such as windows. The high performance 12G-SDI design gives you the power to work in Ultra HD and HD with sub pixel processing for amazing image quality.	€ 9,359
BMD-ULTMSMTREM4	BLACKMAGIC Ultimatte Smart Remote Control The Smart Remote 4 controls up to 8 unit id numbers of Ultimatte-12 via Ethernet or up to 8 unit id numbers of Ultimatte-11/Ultimatte-500 via RS485. Its larger display area and adjustable stand, along with brightness controls for both display and button illuminations, makes the operation user-friendly. With "Monitor Out Views" accessible from every menu, Smart Remote 4 provides the fastest and easiest navigation for every operator.	€ 3,545
