EPI-ESP1441	<b>Epiphany Pearl Mini all-in-one 3 input video production system</b> The most reliable, all-in-one video production system that's small in size and big on pro features. Record, stream and switch up to three full HD video inputs from HDMI™, SDI, and USB sources. Epiphany Pearl Mini™ takes your video production to the next level. The Epiphany Pearl Mini Live Video Production System lets you switch, record, and stream up to two HD video inputs. This touchscreen-operated device will fit right into classrooms, lecture halls, houses of worship, or any other situation that requires simple switching operations with the capacity to record and stream content live.	£2,995
EPI-ESP1150	<b>Epiphany Pearl 2 all-in-one 6 input video production system</b> The Pearl-2 Base Video Mixer from Epiphany is a powerful live production mixer that lets you create visually appealing live video programs by combining, encoding, switching, and recording up to six video sources and two audio sources. With Pearl-2 you can share any kind of video, anytime, anywhere. Simple to use with a web-based portal for initial configuration, you get a drag and drop interface to create completely customizable layouts for your live stream. You can choose to keep Pearl-2's default encoding settings, or customize them to meet your exact needs. Control the video recorder and video switcher capabilities via the touchscreen or the tablet-friendly Epiphany Live interface.	£5,465
EPI-ESP1151	<b>Epiphany Pearl 2 all-in-one rackmount 6 input video production system (2RU)</b> The Pearl-2 Rackmount Video Production Device from Epiphany is a production video mixer that lets you create visually appealing live video programs by combining, encoding, switching, and recording up to six video sources and two audio sources. Simple to use with a web-based portal for initial configuration, you get a drag and drop interface to create completely customizable layouts for your live stream. You can choose to keep Pearl-2's default encoding settings, or customize them to meet your exact needs. Control the video recorder and video switcher capabilities via the touchscreen or the tablet-friendly Epiphany Live interface. It features a 2 RU rackmount server with all the same functionality as the portable Pearl-2, but designed for installation and operation in a rack	£5,995
EPI-ESP1152	<b>Epiphany Pearl-2 Rackmount Twin Video Production Device (2 RU)</b> The Pearl-2 Rackmount Twin Video Production Device from Epiphany is a production video mixer that lets you create visually appealing live video programs by combining, encoding, switching, and recording up to six video sources and two audio sources. Simple to use with a web-based portal for initial configuration, you get a drag and drop interface to create completely customizable layouts for your live stream. You can choose to keep Pearl-2's default encoding settings, or customize them to meet your exact needs. Control the video recorder and video switcher capabilities via the touchscreen or the tablet-friendly Epiphany Live interface. It features a 2 RU rackmount that contains two complete (and independent) Pearl-2 systems	£11,965
EPI-ESP1205	Epiphany Pearl 4K Addon for Pearl 2	£1,815

EPI-PEARLBUN1	<b>Epiphany Pearl Bundle 1</b> Contains the following •1 x Epiphany Pearl Mini all-in-one 3 input video production system •1 x Epiphany Hard carry case for Pearl Mini •1 x Epiphany LUMiO 12x™ PTZ Camera •1 x Wise 64GB SDXC UHS-II Memory Card	£4,459
Item Number	USB3.0 converters	List Price (GBP)
EPI-ESP1360	<b>Epiphany AV.io 4K USB 3.0 Video Grabber</b> This sleek capture device features an HDMI input and USB 3.0 output. It supports up to 4096 x 2160 (DCI 4K) resolution on input and allows you to retain the resolution on output or scale it up or down. Connect cameras, mobile devices, home entertainment devices, and other HDMI sources, and transmit the content to your computer with audio, uncompressed, and with near-zero latency.	£429
EPI-ESP1138	<b>Epiphany AV.io HD USB 3.0 Video Grabber</b> The AV.io HD is a UVC device that shows up on your computer as a webcam. As a UVC device it's designed to integrate with a capture software on your computer, and it's seamlessly compatible with all the popular capture software, including Wirecast, Skype, QuickTime, Adobe FMLE, VLC media player, Windows Camera, and any conferencing software. The captured data can be used for a variety of purposes, like high-end streaming, webcam applications requiring higher image quality than standard webcams offer, and for recording, such as if a doctor needs to capture an ultrasound.	£345
EPI-ESP0964	<b>Epiphany AV.io SDI USB 3.0 Video Grabber.</b> This sleek capture device features a 3G/HD/SD-SDI input and USB 3.0 output (USB 2.0 backwards-compatible). It supports up to 1920 x 1080 resolution on both input and output at up to 60 fps. It also features automatic audio resampling. For situations with surround sound or multi-lingual audio, you can choose which audio pair to capture. Connect cameras, switchers, and other SDI devices and transmit the content to your computer uncompressed and with near-zero latency	£429
EPI-ESP1137	<b>Epiphany DVI2USB 3.0 Video Grabber</b> The DVI2USB 3.0 Video Grabber from Epiphany is an external capture card lets you capture uncompressed video and images from DVI, VGA, or non-HDCP protected HDMI devices on your computer over USB 3.0 in resolutions up to 1080p and 1920 x 1200. It also supports simultaneous capture of stereo digital HDMI audio. An included driver allows for extensive configuration of color space conversion, image scaling, and audio re-sampling for maximum flexibility in video capture settings. For a ready-to-use package, a DVI cable, a DVI to VGA adapter cable, and a DVI to HDMI adapter are included, as well as a USB 3.0 cable.	£600
EPI-ESP0657	<b>Epiphany SDI2USB 3.0 Video Grabber</b> Record an uncompressed 3G, HD, or SD-SDI video feed from a camcorder, switching console, or deck with your computer with the Epiphany SDI2USB 3.0 3G-SDI Video Capture Device. Using a USB 3.0 connection, you can record 1920 x 1080 resolution video at up to 60 fps without the need for separate programs or drivers.	£600

Item Number	Streaming media solutions	List Price (GBP)
EPI-ESP1382	<b>Epiphany Webcaster X2</b> The Epiphany Webcaster X2 can broadcast to either YouTube Live or Facebook Live. Plug in your camera, switcher, or other HD video source via HDMI, connect to a local area network via Wi-Fi or hardwired Ethernet, and set up your stream by pairing the device to your relevant streaming accounts. The front display shows streaming status and pairing codes for setup. For additional tweaking, plug the HDMI output into a monitor and connect a separately available mouse or keyboard to the onboard USB ports. To keep things easy, the Webcaster X2 will automatically configure the H.264 encoding bit-rate for optimal performance based on the streaming platform and output resolution.	£257

EPI-ESP1352	<b>Epiphany KVM2USB Pocket-Sized KVM over USB Device</b> The KVM2USB Pocket-Sized KVM over USB Device from Epiphany is a simple solution to finding and lugging around "crash carts" with a monitor, keyboard, and mouse to administer headless servers and other machines. This highly compact solution is easily plugged in and requires no additional power, so you don't have to locate a spare electrical outlet onsite, or drain valuable power from your UPS systems during emergency shutdown procedures. The KVM2USB is ideal for network administrators and security experts who want to manage red-lan, compartmentalized LANs, DMZs, or contaminated equipment without making connections that expose other equipment and networks to a compromised machine.	£429
		
EPI-ESP0440	<b>Epiphany VGADVI Broadcaster</b> VGADVI Broadcaster captures HD video sources such as a computer monitor, RADAR display or ultrasound monitor as well as SD video sources such as a camera feed. VGADVI Broadcaster can stream these sources as two synchronized, time-stamped streams or a multi-source layout with customized branding. Streams can be remotely accessed through web browsers, media players, mobile devices or set-top boxes. Streams can be recorded to local storage and downloaded at a later date.	£1,375
		
EPI-ESP1040	<b>Epiphany LUMIO 12x™ PTZ Camera</b> Capture a beautiful 72.5° wide view of your event at 1080p with Epiphany's PTZ camera, LUMIO 12x. Focus in on important visual details with 12x optical zoom and 2x digital zoom for ultimate capture precision. Use the remote control to create and apply custom presets with the touch of a button for quick, simple and error-proof camera operation. Pair with Epiphany Pearl-2 for a complete live production solution right out of the box.	£1,285
