| Item Number | Single Mode / Multimode Fibre Cables | List Price (GBP) |
|---|---|------------------|
|  | Optical cabling is well established in the broadcast and AV sectors, especially in the OB and installed markets. FieldCast's range combines the all-important characteristics of fibre with a new straight-forward approach to cable types, connectors and adapters, making fibre as easy to use and versatile as traditional copper cabling. FieldCast has been designed for real-world broadcast environments. Cables are extremely robust while connectors are IP67 certified – water-resistant, and impervious to dust, grit and sand. <ul style="list-style-type: none"> • Available in 100m and 200m cable lengths in 2 or 4 core, single or multi-mode fibre configuration • Cables supplied on Heavy Duty Schill Drums • Each cable type is colour-coded making use in the field exceptionally simple • "Ultra Light" cables are heavy duty & IP67 certified but designed primarily for studio work | |

| Item Number | Systems for PTZ cameras | List Price (GBP) |
| FCT-PTZM | FieldCast PTZ Monk 3G SDI/ethernet to fiber converter with power out over fiber. FieldCast PTZ Monk is a small one channel fiber optic converter designed for 3G SDI PTZ camera systems with ethernet control. PTZ Monk converts the 3G SDI video output of the PTZ camera to fiber and acts as a fiber media converter for the ethernet control data. | £725 |
|  | | |
| FCT-PTZMFDOCK1 | FieldCast Fiber Dock One standalone control station for 4 PTZ cameras. FieldCast Fiber Dock One is a four channel fiber optic converter designed for 3G SDI PTZ camera systems with ethernet control. If you want to go fiber with these the easy way, go Fiber Dock One. | £4,395 |
|  | | |
| FCT-PTZMFNODE1 | FieldCast Fiber Node One local control station for 4 PTZ cameras. FieldCast Fiber Node One is a four channel fiber optic converter designed as a local unit for FieldCast Fiber Base One. | £4,795 |
|  | | |
| FCT-PTZMFBASE1 | FieldCast Fiber Base One remote control station for 4 PTZ cameras. FieldCast Fiber Base One is a four channel fiber optic converter, designed as a remote unit for FieldCast Fiber Node One. | £2,895 |

| Item Number | Converters | List Price (GBP) |
|  | The active box that converts your media to fibre optics and directly connects to the FieldCast cable. For every job there is a converter that brings you exactly what you need. A fibre optic converter simply brings your electromagnetic signal to light, sends it over the fibre optic cable, and at the end of it converts it back to the electromagnetic signal you started with. However, by using multiplexing and demultiplexing techniques you can get way more out of a light path! Different wavelengths of light can be sent over just one fiber optic strand, independently. FieldCast brings these techniques to you, offering systems with up to eight channels of 12G SDI over just one fibre! | |
