

Item Number	3G/4G Load Balancing Router	List Price (GBP)
INT-WFA	 <p><b>INTRATEC WiFi Anywhere</b> - Your own portable 3G/4G Wifi Hotspot  <b>Internet Reliability without Wires</b>            The WiFi Anywhere device can combine up to four internet connections ( 3 x 3G/4G USB Modems + 1 x Hard Wired Connection) allowing you to simultaneously combine multiple Internet providers for maximum speed, efficiency and reliability. The built-in automatic health check feature will monitor the Internet links status and reroute traffic in case of a link failure, this makes the WiFi anywhere device the ideal 'Insurance Policy' for when no connection is not an option  <b>Faster Browsing</b>            Internet access is provided by using multiple 3G/4G Mobile Broadband Dongles or a wired WAN connection where available. Traffic is balanced between all active connections allowing multiple users to browse the internet without overloading a single internet connection.  <b>Faster Uploads</b>            Take full advantage of the multiple paths to the internet using multi-threaded applications to send files back to base faster.</p>	£399
INT-WFAC	 <p><b>INTRATEC WiFi Anywhere Optional Case / Power Kit</b>            Optional accessory for the IntraTec WiFi Anywhere - the ruggedized case kit makes the device become a true 'WiFi Anywhere' solution. In addition to providing portability, the case includes a standard V-Mount battery plate which would allow approx 18 hours operation with a standard v-lock battery. (Battery not included)</p>	£199
<b>Optional Accessories</b>		
INT-MAUSB	<p><b>INTRATEC Multi-Angle USB Adapter</b>            Allows different alignment of 3G/4G USB Modems that dont have a flexible USB connector</p>	£10
Item Number	Long Range WiFi Bridging Units	List Price (GBP)
	<p><b>IntraTec Bridge 2 and Bridge Duo 2 are a powerful new way to connect video equipment with network connections over very large distances using Wifi.</b></p>	
INT-BRIDGE2	 <p><b>INTRATEC BRIDGE 2</b>            BRIDGE 2 is very powerful miniature camera top Wifi transmitter, which can be powered by mains or a variety of battery solutions via a secure 2 pin Lemo connector. You can connect any network enabled device via Ethernet to the BRIDGE which can then link to a second BRIDGE or BRIDGE DUO unit via a long range, completely transparent WiFi connection (range approx 250m with supplied antenna, or much further with optional external antennas)            The devices connected will assume you have a network cable attached.  <b>New MK 2 version - smaller depth, increased power output compared to MK1 version</b></p>	£425
INT-BRIDGEDUO2	 <p><b>INTRATEC BRIDGEDUO 2</b>            BRIDGE Duo 2 in addition to Bridge 2 functionality also features a second WiFi radio allowing both long range connectivity to a another BRIDGE/DUO unit as well as local connection of any devices via WiFi (up to 100m) or via Ethernet. This allows users to use iPads or laptops to connect in addition to the long range network cable like connection. The BRIDGEDUO 2 comes in a ruggedized case with built in dual V-Mount power supply which can last all day. (batteries not included)  <b>New to MK2 version - Dual V-Mount power supplies, the ability to mount larger, higher capacity V-Mount batteries, and built in 12v 5A regulated XLR power outlet</b></p>	£725
<b>Optional Accessories</b>		
DATA-BH8	<p><b>DATAVIDEO BH-8 Ball &amp; Socket Head</b>            suitable for mounting BRIDGE on top of camera (without Teradek CUBE) e.g. Cameras with Ethernet Output</p>	See Datavideo Price List
INT-LC2P2P25Y	<p><b>INTRATEC 2 Pin Lemo Y cable</b>            Provides power pass thro on BRIDGE 2 unit</p>	£49
INT-BDCAB	<p><b>INTRATEC XLR Multi Power Splitter Cable</b>            XLR to 2 Pin Lemo + 3.1 MM DC Plug + 2.1MM DC Plug</p>	£45
INT-BEA8DB	<p><b>INTRATEC Bridge/Bridge Duo External Antenna 8dB - Omni Directional</b>            Max Range : 2Km (Bridge), 4Km (Bridge Duo)</p>	£69
INT-BEA19DB	<p><b>INTRATEC Bridge/BridgeDuo External Antenna 19dB - 25° Dual Polarised Panel Antenna</b>            Max Range : 10Km (Bridge &amp; Bridge Duo) Both Limited by UK Regulations  <i>Max Range based on same antenna fitted each end (based on 12Mbps link)</i>  <i>See website for further info and to calculate accurate max distances</i></p>	£79
INT-BEAC3M	<p><b>INTRATEC Bridge External Antenna Connection Cable - 1m (RPSMA to N Socket)</b>            Allows connection of optional external antennas for increased range (suitable for BRIDGE/DUO)</p>	£20
INT-BEAC5M	<p><b>INTRATEC Bridge Universal Antenna Extn Cable - 5m (RPSMA to RPSMA)</b>            Suitable for extending either standard or external antenna cable length</p>	£30
INT-POEBRIDGE	<p><b>INTRATEC Bridge Power Over Ethernet Injector (inc PSU) - Suitable for Bridge</b>            Allows unit to be powered via ethernet where mains or battery supply is not convenient</p>	£40
INT-POEBRIDGEDUO	<p><b>INTRATEC Bridge Power Over Ethernet Injector (inc PSU) - Suitable for Bridge Duo</b>            Allows unit to be mains powered via ethernet when power by V-Mount battery is not desired</p>	£60
Item Number	Lemo Cables	List Price (GBP)
INT-LC2P2P25	INTRATEC Lemo Cable - 2pin to 2 pin approx 25cm	£49
INT-LC2P4P25	INTRATEC Lemo Cable - 2pin to 4 pin approx 25cm	£49
INT-LC2PDTAP50	INTRATEC Lemo Cable - 2pin to D-Tap approx 50cm	£49
INT-LC4PDTAP50	INTRATEC Lemo Cable - 4pin to D-Tap approx 50cm	£49
