	<p>PARALINX Ace</p> <p>The Paralinx Ace wireless video transmission system is the latest addition to the Paralinx family. Featuring realtime, uncompressed, wireless HD video and available with either SDI or HDMI input/output this compact, rugged, lightweight system is the ultimate short-range wireless solution for professional filmmakers.</p> <p>The Ace will send uncompressed HD video signals up to 1080p60 with zero-latency up to a maximum range of 300ft/100m. Each transmitter can multicast to up to 4 receivers and receivers can be paired by the user via an onscreen-display. The rugged aluminum and ABS plastic enclosures are lightweight and feature threaded inserts for attaching an onboard battery plate (LP-E6, NP-F, BP-U) or mounting brackets.</p>
