

Item Number	13" HDR Ready Production Monitor	List Price (GBP)
	SmallHD HDR Ready Production Monitor Series SmallHD's new HDR monitors deliver outstanding image quality and unmatched LOG support with flexible management of user-defined and third party LUTs. They offer excellent viewing angles and superior colour response, as well as a massive array of image analysis and shot framing tools. All models feature real innovation, with a rail system on the back of the monitor that enables producers to attach and power wireless receivers and other accessories. The monitors are built to exacting standards, with a super strong milled aluminium frame that can withstand the roughest treatment: they are designed to give years of use, whether in the studio or in the field.

SHD-MON702BLK	SmallHD 702 Bright Full HD Field Monitor - Limited Edition Black  The first of a new line of feature rich, daylight viewable, 7-inch monitors. Along with the 1000 NITs of brightness (2-3x traditional LCD), the LCD panel features optically bonded glass with anti-reflective coating. This greatly reduces glare and helps the high resolution, color accurate display remain visible, even in the brightest of environments. Housed in an aircraft grade aluminum unibody, the 702 Bright is both durable and functional. Contributing to its slim physique is an industry first, Sony L Series and Canon LP-E6 battery solution (no battery plate required). The 702 Bright's construction is the perfect complement to its daylight viewable display. <ul style="list-style-type: none"> • Daylight Viewable 1000nit brightness • SDI + HDMI in/out + Cross Conversion • 1920 x 1080 display resolution, with anti-reflective coating • 7-inch screen diagonal • Scopes, Focus Assist, Pixel Zoom 	£995

	SmallHD 502 Bright Tack sharp, tactfully designed and boasting a screen resolution of 1920x1080, the 502 Bright is one of the sharpest 5-inch displays in the world. It's convenient size and display brightness make it easy to see what's in focus, even in high ambient lighting conditions. The 502 Bright offers extreme durability without being exceedingly heavy. Housed in an aircraft grade aluminum unibody with plenty of mounting points, this 5-inch monitor is ruggedly handsome and beautifully designed. Quality tools with quick accessibility, with real-time 3D LUTs, Scopes, Waveform, False Color, and Focus Assist/Peaking, the 502 Bright is equipped with SmallHD's premium tool set and Page Builder operating system. Data driven software tools become easy to access with an intuitive user experience. <ul style="list-style-type: none"> • 5-inch Daylight Viewable Monitor with HDMI/SDI Cross Conversion • 1920 x 1080 Full HD Resolution • SDI/HDMI Cross Conversion • 1000 nits bright • 441 pixels per inch • Custom LUTs • 2 x LP-E6 Battery Slots
