

Item Number	Wirecast Gear Live Video Streaming Production Hardware	List Price (GBP)
 Wirecast GearV2	Wirecast Gear gives you an easy to use, fully configured live video streaming production system. Because we've already done all the work, there is no need to build your own system! Start streaming in minutes with an end-to-end system configured specifically for your needs. With Wirecast Pro included alongside Gear's custom-designed hardware, it's a live event production switcher, live news production system, Facebook Live switcher and YouTube Live switcher - all in one box. Each model of Wirecast Gear comes with Xeon Server Architecture, up to five HD-SDI or HDMI professional camera inputs and all the live video streaming production features of Wirecast Pro, the Stock Media Library*, NewBlue Titler Live Complete, and Switch Pro, all in a compact, powerful hardware system. Wirecast Gear offers a unique blend of performance, ease of use and affordability. Just plug in your cameras and start streaming with producing your professional events with the industry leading turnkey video production system.	
	Wirecast Gear 310 With 4 HDMI capture ports for your consumer cameras, professional XLR/TRS combo audio inputs and full 60 FPS workflow capabilities, there is no better way to get streams up and running. The 310 is perfect whether you are broadcasting from your church, school, concert venue or more!
