FEATURES

One, Is More than Enough

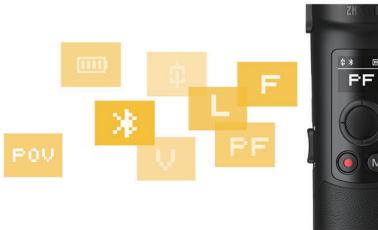

CRANE-M2, with unprecedented all-in-one design, offers great compatibility to multiple devices, such as compact cameras, light mirrorless cameras, smartphones, and action cameras.

Small Body. Bigger Vision

With a sleek body and compact size, CRANE-M2 offers great comfort to your hand and unrivalled control over your camera. CRANE-M2 easily goes wherever you go, so you will never miss that perfect moment again.

Easy Setup. Get Ready Anytime

CRANE-M2 is designed with a new quick release system - Lite. You can quickly mount or dismount your camera with a single press of the button. And with a unique scale mark and memory lock, balancing is easy with the device storing settings in its memory, saving the need for readjustment every time.

Intuitive OLED Display

The OLED display shows the gimbal mode, Bluetooth & WiFi status, battery level and various gimbal parameters.

Expanded Functionality

With one 1/4 threaded hole at bottom and another one on the side, CRANE-M2 can be mounted to various filmmaking rigs to open up even more creative possibilities.

Smooth Zoom at Fingertips

With a single push of the slider on side of the handle, you can zoom in/out to capture smooth footage at a distance.

Full-Range POV Mode

Break through the limits of traditional 45° POV, Full-Range POV allows 360° synchronous movement on all three axis of the gimbal, offering an immersive experience like never before.

Seamless Camera Control via WiFi & Bluetooth

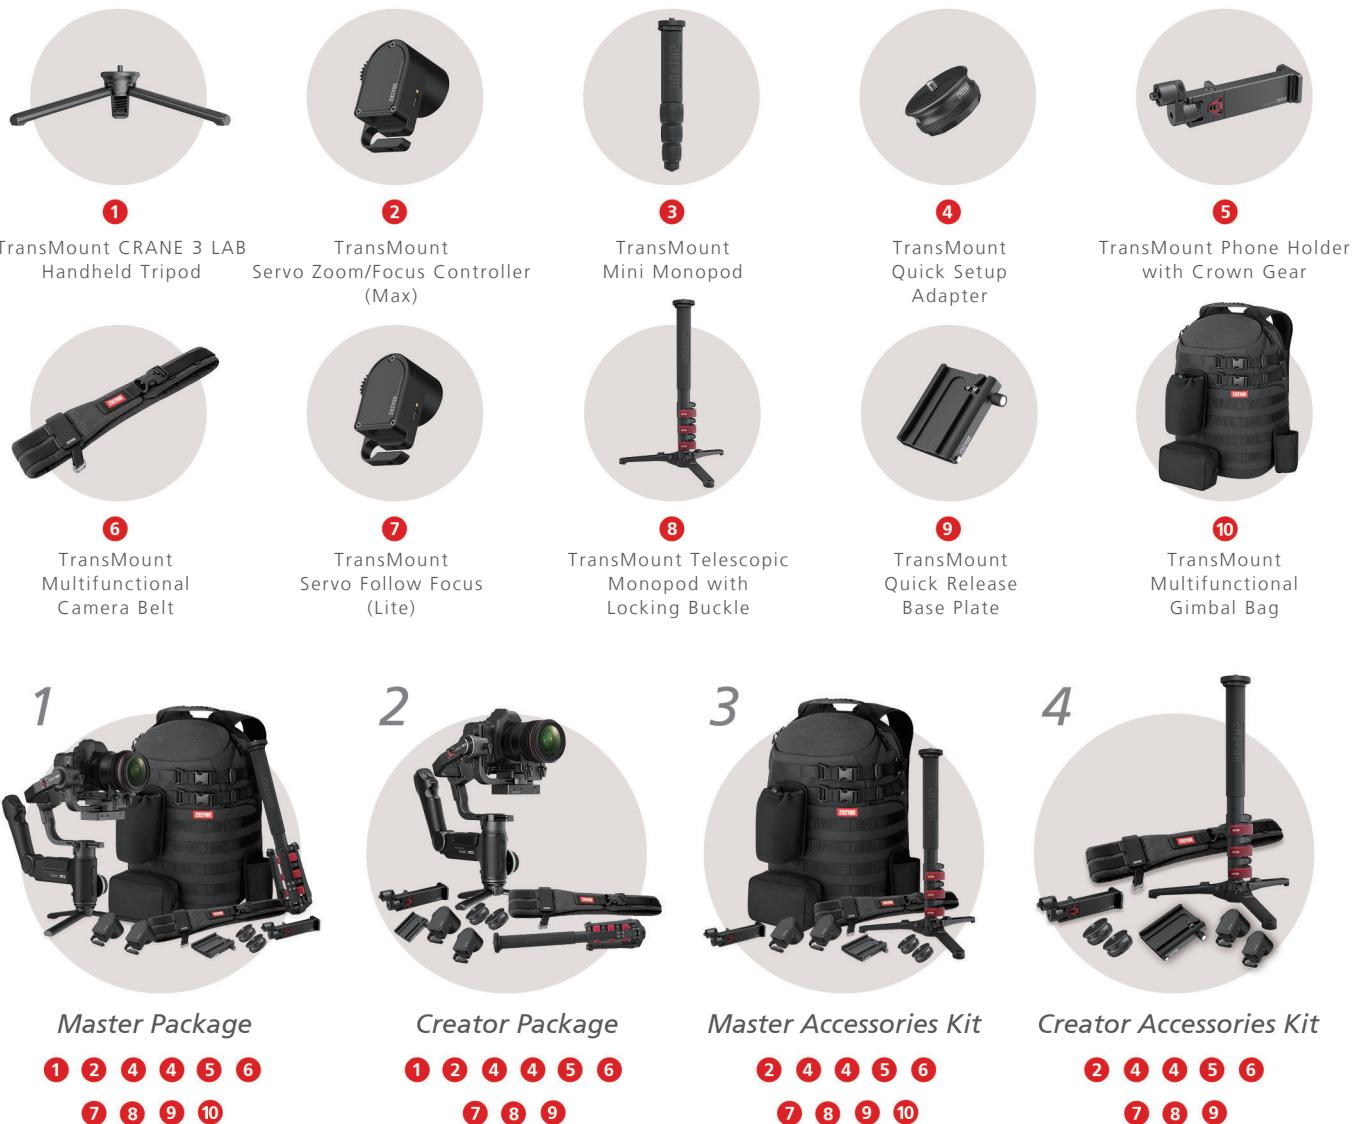

With a WiFi-and-Bluetooth control module, CRANE-M2 allows you to control your camera wirelessly through the gimbal handle. Once paired via ZY Play, your camera and the gimbal will automatically pair again when turned on.

Tiny Body, Great Power

CRANE-M2 features an impressive runtime of up to 8 hours to keep you powered throughout your adventures. Besides charging your phone, CRANE-M2 can also be charged with a power bank.

ACCESSORIES & STANDARD PACKAGE
