CRANE PLUS

Intelligent 3-axis Camera Stabilizer

Crane Plus is an intelligent 3-axis camera stabilizer which with AI technology. Featuring the newest SmartFollow, POV Mode, NightLapse and MotionMemory based on a dedicated APP, it allows intelligent object tracking and stunning long exposure timelapse. MotionMemory can help to set up and save advanced camera movements. A POV mode unlocks more possibilities for dramatic shooting. Filming has never been so easy and so smart.

DO PLUS PLAY PLUS

FEATURES

MotionMemory

Using the MotionMemory feature with Crane Plus allows you to set up advanced camera movements and save them so Crane Plus will remember them for the future. It will even remember all of your timelapse settings like the interval, number of shots and duration.

POV Mode

Crane Plus adds a newly designed POV mode that allows for additional camera movement by providing up to 45° of synchronous motion on the roll axis. What this means is that rather than Crane Plus keeping the camera level when you roll left or right, in POV mode it moves with you, rolling your camera left or right, up to 45°.

SmartFollow

Crane Plus even allows higher-precision object tracking with an intelligent image recognition system. Draw a box around the object you want to track on the phone screen, then your Crane Plus can easily track the moving object and do all the work for you!

NightLapse

Using Crane Plus with NightLapse, you can capture stunning star trails, moving night time traffic, capture the passage of time over beautiful midnight landscapes, all with the stunning motion and stability that only Crane Plus can provide.

All-in-one Design

Crane Plus comes with a camera cable that can control both your camera and stabilizer. Combined with the ZY Play app, Crane Plus helps you shoot beautiful motion timelapse and panoramas.

Customizable Scenes

Crane Plus can be set up to meet your precise stabilization needs. Save all settings to personalize your gimbal experience. Go beyond the standard set up with Crane Plus.

A Massive Capable Payload of 2.5kg

Using our cutting-edge, 6th generation Instune Algorithm System, Crane Plus can handle an impressive payload capacity of up-to 2.5kg (5.51lbs).

Full Set of Accessories

Crane Plus includes a lineup of accessories to help you get shooting straight away. You get an anti-slip grip, camera cables for phone control & charging, as well as an aluminium tripod for extended use.

ZHIYUN APP

ZY Play

ZY Play is a powerful app dedicated for Zhiyun stabilizer users. With it, you can remote control your camera and gimbal.

Lightollector

Open the app, you will find the world's biggest video sharing community for stabilizer lovers - Lightollector, with detailed stabilizer tutorials and amazing footage created and shared by users worldwide.

CRANE 2 Specs

Operation Voltage	9.8V-12.6V	
Operation Current	110mA-6000mA	
Operation Temperature	-10°C-45°C	
Operation Time	12h-18h	Well balanced with camera mounted
Weight	1250g	Excluding batteries
Tilt Angle Range	320°	-135°-185°
Roll Angle Range	360°	Unlimited rotation
Pan Angle Range	360°	Unlimited rotation
Payload	500g-3200g
