

INOVATIV AXIS

WORKSTATION FOR CREATIVES

Axis is a modular workstation that is customizable to your ideal workflow. Modular components include INOVATIV's revolutionary wheels and casters, keyboard trays, monitor mounts, case holders, troughs, and additional accessory attachment brackets.

As a modular system, users may select from several individual components to build a workstation from the ground up. With its quick drop and release components plus height adjustability, AXIS gives users the ease of connecting everything tool free.

INOVATIV has curated five different AXIS kits that are customized to fit the roles of creatives in the industry Steadicam, Operator, DIT, Photographer, Digital Tech and more.

INOVATIV deploy

PREPARE, CREATE AND DEPLOY

Deploy Gen IV with Insight Monitor Mounts

Deploy Gen IV with Two-Stage Riser

Deploy Gen IV

Deploy Gen IV with Insight Monitor Mounts

INOVATIV's Deploy is the cart with the small footprint. Based around a lightweight aluminium framed body, the latest version is about 20% lighter.

Deploy Gen IV is a split configuration with equal top and bottom halves, with 8 rack units on the top and the lower section. It's easy to breakdown and transport with INOVATIV's reliable and lightweight 8" EVO Dovetail Wheel System in the front, plus powerful brakes and 20" back wheels. These larger wheels are designed for easy curb assistance or accessing stairs.

A notable change are the collapsible wings making it easy to access narrow halls or doorway passages; each wing can hold up to 45kg.

With the new design, there are more options to attach different accessories on the crossbar. Deploy comes with tubes for add-ons such as the 2-stage risers. The centre mount at the back allows for multiple crossbars and the flexibility to mount multiple points for mounting transceivers, receivers and boom poles. The traditional rivets at the front and back allow for multiple configurable mounting options for a variety of accessories that are height adjustable.
