Lenses up to 14mm (35mm Academy)
144mm Rear Opening
French Flag and Side Wings for light control
1 Fixed 4 x 5.65" Filter Holder
1 Rotating 4 x 5.65" Filter Holder
16:9 Carbon Fibre Housing
15mm Mini Swing-Away Bracket
144:114 Rubber Bellows

CAGES

The Movcam range of professional camera accessories include cages, handles, supports, base-plates, rails, battery interfaces and much more. They are compatible with cameras ranging from mirrorless and DSLR style, all the way up to cinema cameras from Arri, Blackmagic Design, Canon, Panasonic, RED and Sony.

The Benefits of using a camera cage

- Adds protection to your camera.
- Allows the use of support handles.
- Numerous 1/4" and 3/8" threads allowing you to mount several additional accessories to your rig.
- Allows the use of support rods to mount a mattebox, follow focus unit, and lens support.

Composed of high-grade carbon fibre and sturdy ABS, Movcam's matteboxes are designed to offer you complete control over the light hitting your lens.

Each of our models are lightweight, rugged, and feature filter trays to allow you to mount professional ND, polariser or creative filters.

Mattebox	Rear Opening	Rod Compatibility & Mount	Flag	Filter Holder	Housing Material
MM1	144mm, supplied with 114mm bellows ring	15mm, swing away bracket	French flag and side wings	1 fixed 4 x 5.65" filter holder, 1 rotating 4 x 5.65" Filter Holder	Carbon fibre

FOLLOW FOCUS

Movcam's range of manual Follow Focus units and wireless single dual and 3-axis lens control systems offer robust performance for total control over cinema lenses.

The wireless Follow Focus units are designed as a modular system, they are available as either a single, dual or triple axis system, with the single axis system upgradeable by purchasing additional modules.

The system features OLED information screens that are visible both indoors and out and automatic lens calibration.

The focus controller/transmitter incorporates a slot that accepts NP-F550 and F570 type batteries internally (batteries not included). Although the system has a wireless range of about 90' indoors and over 650' outdoors, you can connect an included cable to hardwire the focus controller to the motors. The motors are powered via an included D-Tap cable and feature an integrated 15 to 19mm rod clamp. Each motor ships with a replaceable 0.8 MOD cine-style gear. The system can control record start/stop for select RED, Canon, Sony, Arri, and Blackmagic Design cameras (requires optional cables, not included).

MOVCAM PRODUCT REFERENCE GUIDE

Movcam Mattebox Options	
MOV-301-0201	MOVCAM MM-1 Mattebox Kit
MOV-301-0203	MOVCAM MM-3 Mattebox Kit
