BOLT 3000

SDI / HDMI Wireless Video Transceiver Set

FEATURES AND BENEFITS

- LONGER RANGE**
Transmit visually lossless video up to 3000ft with no delay.
- 20MHz CHANNELS**
Use more than twice as many Bolts in one location or avoid interference like never before.
- 2 NEW DFS CHANNELS**
Operate interference-free more often in the USA and Europe by making use of two newly introduced DFS channels.
- 20% SMALLER**
Not just smaller, but lighter too allowing these models to integrate into any rig unnoticed.
- MORE ROBUST THAN EVER BEFORE**
Reach your Bolt's full range and potential with new software that provides the most robust wireless link we've ever created.
- RAPID RECONNECTION**
Reconnect times during a dropped link are now instantaneous once you move back into range.
- BUILT IN HDMI TO SDI CONVERTER**
Connect both your on-camera monitor and video source via the same device.
- INDIVIDUAL IDENTITY**
Easily identify which Bolt TX and RX work together with removable coloured top plates.
- METADATA AND TIMECODE SUPPORT**
- 3D LUTs**
- DUAL INPUTS/OUTPUTS**
- MULTICAST CAPABLE**
- MANUAL FREQUENCY SELECTION**
- USB 3.0 GRAB ENGINE INCLUDED**
