

Productname: camRade audioMate 1
SKU: CAM-AUMATE-1
EAN/UCC: 8718591670022

Resistant against:

Description

The camRade audioMate 1 is suited to carry and protect a wide variety of audio mixers and recorders. The layout of the bag allows you have full access to all necessary controls during your work.

This audiobag has a detachable front pouch with top window and 2 fixed pockets on the sides for microphones, cables and batteries. The main compartment has 2 dividers to firmly hold the audio mixer/recorder and still provide room for necessary accessories and cables. Small openings are created for pulling cables through from one compartment to the other.

The bag is lined with special noise-reducing fabric and has vinyl windows with hook and loop fasteners. These provide protection to the equipment, while allowing view of, and access to the controls.

For optimal carrying comfort the bag is delivered to you with a padded suede shoulder strap, but is also compatible with an audio harness, for example our audioStrap Standard or Deluxe.
