

Productname: camRade wetSuit PXW-FS7
SKU: CAM-WS-PXWFS7
EAN/UCC: 8718591671098

Resistant against:

Description

The camRade wetSuit PXW-FS7 is a black soft flexible waterproof rain cover that protects your camera against the elements. It also covers the viewfinder monitor, microphone and other accessories.

The rain cover is designed specifically for the Sony PXW-FS7 camera. The near silent fabric minimalizes unwanted sound effects caused by wind and rain and reduces the chance of the camera overheating by allowing hot air to escape via the breathing material which the cover is made of.

The wetSuit has clear vinyl windows for visibility when adjusting the menu, audio input select level and other controls. The viewfinder monitor is completely closed off by the fabric and vinyl window, so no water will come into the suit during use. The suit also covers the lens, Ergonomic Handgrip and offers room for the XDCA FS7 extension on the back of the camera.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storing and transportation of the cover when not in active use.
