

Productname: camRade wetSuit PXW-X160/180
SKU: CAM-WS-PXWX160-180
EAN/UCC: 8718591670190

Resistant against:

Description

The camRade wetSuit PXW-X160/180 is a black soft flexible waterproof rain cover that protects your camera against the elements. It also covers the viewfinder, microphone and other accessories.

The rain cover is designed specifically for the Sony PXW-X160 and PXW-X180 camcorders. The near silent fabric minimalizes unwanted sound effects caused by wind and rain and reduces the chance of the camera overheating by allowing hot air to escape via the breathing material which the cover is made of.

The wetSuit has clear vinyl windows for visibility when adjusting the menu, audio input select level or other controls. The viewfinder monitor is completely closed off by the fabric and vinyl window, so no water will come into the suit during use.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storing and transportation of the cover when not in active use.
