Resistant against:

### Description

The camRade wetSuit PXW-Z150/HXR-NX100 is a black soft flexible waterproof rain cover that protects your camera against the elements. It also covers the LCD monitor, microphone and other accessories.

The rain cover is designed to fit the PXW-Z150 and the HXR-NX100 camcorder from Sony. The near silent fabric minimalizes unwanted sound effects caused by wind and rain. The cover also reduces the chance of the camera overheating by allowing hot air to escape via openings in the suit.

The wetSuit has clear vinyl windows for visibility when adjusting the menu, audio input select level or other controls. The LCD monitor is completely covered by the expendable cover, so no water will come into the suit during use.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.

### Key features
